THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one--Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee--weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of slips. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms--in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:--

The British Columbian.

NEW WESTMINSTER, THURSDAY, APR. 27, 1865.

WHICH IS IT?

Our attention was drawn by a reader of the *Victoria Chronicle* to an item having reference to direct steam communication to New Westminster, and we have been applied to for information respecting the rocks and reefs which have lately appeared so prominent to the local steamers as to interfere with their safety in making the passage from Victoria to this port, and we have further been asked whether these rocks have not "grown" there lately. We had penned a few lines the other day drawing attention to the singular circumstance that occurred, but on reflection withdrew them, little thinking at the time that the *Victoria* press would give us such a nice opportunity for exposing the malignant jealousy which presides over the editorial genius of the island. The "Enterprise Rocks"—so named after the steamer *Enterprise* which plied to the Fraser in 1858, from the fact of her having struck upon them before the locality was surveyed—are situated on the Vancouver side of Active or Plumper Pass, and are as well known to sea-faring men and as well defined upon Capt. Richard's Admiralty chart as any marine rocks in the world can be, and no better or more accurate charts were ever published. It therefore follows that the frequent accidents to which the *Chronicle* alludes must be attributed to one or other of the following causes: First, the act of running these steamers on was premeditated and planned by Victoria jobbers, and the captains have been paid for their treachery, which, by the by, we cannot believe, notwithstanding the weight of circumstantial evidence against them: Secondly, that the said captains are incompetent for the position they hold, either from inability or inebrity, a charge equally incredible against such gentlemen: Third, that the supposition of our friend is correct, viz., that it is a new reef sprung lately into existence—that having "grown" there recently its position was wholly unknown to the mariner. Which of the above alternatives will our contemporary assume? It would be preposterous to impute either the first or the second to such men as Capt. Mount, who, on a rough estimate, must have passed the spot in question over a thousand times without having come in contact with any rocks. There is another very strange coincidence involved in this affair. For nearly seven years steamers of all classes, from the little steam-yacht *Leviathan* to Her Majesty's frigates of war, have passed this marine phenomenon at all tides and in all weather, and yet it was reserved till Capt. Thorne was on his way hither, to make arrangements for placing a line of ocean steamers upon the route to New Westminster, to run two steamers foul of these rocks in the space of one week! We would not be understood for a single moment to insinuate that the presence of that gentleman had anything to do with the accident; only the thing does look strange, that's all. We fully expected that an attempt would be made to throw dust in the eyes of any person who would essay a new enterprise for the benefit of this colony which did not bear a primary reference to Victoria interests. But we have the satisfaction of feeling assured that in this instance, at least, the attempt has proved as futile as it was transparent. It was overdone. A practical man like the gentleman alluded to by the *Chronicle*, and for whose especial benefit the whole drama was enacted, must see by a glance at the charts that better steam navigation cannot be found than the inland waters extending from Olympia to the borders of Behring's Straits. We wish to draw attention to one more circumstance. The difficulties attempted to be raised by our island friends if they exist at all, are as much in the way of approaching the thriving port of Nanaimo; but of course they, like ourselves, must be sacrificed for the benefit of the few traders and shop-keepers located on the borders of a rocky inlet, yeelp Victoria.

THE ROYAL COLUMBIAN HOSPITAL.—We have been requested by the President of the Board of Management to state that sermons will be preached in aid of the funds of that institution at Holy Trinity Church on Sabbath the 30th inst., in the morning by the Lord Bishop of the Diocese, and in the evening by the Venerable Archdeacon Wright. The object is one which cannot fail to commend itself to the sympathy and support of every Christian.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the only newspaper published in British Columbia, and is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this colony. J. D. DUNN, in Victoria, and L. P. FLEMING, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, THURSDAY, APR. 27, 1865.

RELIGIOUS DESTINATION.—Our local contemporary, in a fit of piety, treats his readers to a very pathetic appeal in the form of a leading article upon the destitution of Yale in respect to Gospel ordinances, which we feel sure will be duly appreciated by those in whose behalf it is written. But in order to guard against an erroneous impression on the part of those who may read the article alluded to it is only fair to the churches in this colony to state that from the spring of 1860 to the spring of 1864 the Episcopal Church was represented in Yale by a resident clergyman. A Wesleyan missionary also devoted his time to Yale and Hope from March 1859 to June 1864, residing at the former town during about two years of that period. Subsequent to the removal of these clergymen Yale has been supplied from New Westminster and Hope by these two denominations, upon an average, about once a month. In addition to the above the Roman Catholic missionaries have held service there about once a month. The reason why the church our contemporary saw has not more frequently and regularly "echoed to the sound of public worship" must, we fear, be looked for elsewhere than in the lethargy and indisposition of the churches to supply the inhabitants of Yale with the means of grace. But it is somewhat singular that when the writer of the pathetic article aforesaid saw the "four or five hundred inhabitants" he did not also observe that there were three churches instead of one, for it must be presumed that his vision was very keen at the time. It will doubtless be a relief to our contemporary to know that arrangements have been maturing for giving Yale a regular supply; and if he is anxious to know why it was temporarily abandoned as a regular station we beg to refer him to the two clergymen who resided there.

FROM VICTORIA.—The steamer *Enterprise* arrived from Victoria on Tuesday evening, bringing considerable freight and about 80 passengers. We are in possession of Victoria files, which, however, possess little of interest to British Columbia. Capt. Stamp had returned on the steamer *Orter* from Port Neville. The *Chronicle* says: "The loggers at the head of Port Neville have out about 200 spars, which will be taken to Burrard Inlet, where the first mill of the company will be erected. Active operations at Neville will not be prosecuted at present. The *Orter* left New Westminster at 11 o'clock in the forenoon of one day and arrived at Neville at noon on the following day. She took eight oxen from Neville to Burrard Inlet, and took in 100 tons of coal at Nanaimo on Saturday last. The entrance to the harbor at Neville is good. The *Orter* anchored about five miles up the Inlet, which is about seven miles long. Two small streams empty into the Inlet from the mountains. The timber is said to be of excellent quality and of great size."—At a meeting of the City Council a resolution was passed urging upon the city representatives the passage of the Incorporation Bill. An auction sale of country lands for \$1,500 arrears of taxes was held on Monday, at which the bidding was spirited. A very disagreeable scene took place in the House of Assembly on Friday, in which DeCosmos and Tolmie indulged in the most undignified language. The former gentleman has since apologised, so says the *Chronicle*.

FROM YALE.—The steamer *Reliance* came in from Yale on Tuesday night, bringing an express for Dietz & Nelson, but very little news. The water had fallen a few inches at Yale. The road through the canyons was open and traveling quite good. About \$15,000 in treasure came down in private hands, 126 ounces of gold being in the hands of one Chinaman. Considerable quantities of gold have been obtained from bar diggings on the Fraser, and is now reaching market. Trade is looking quite brisk at Yale, and forwarding has commenced with great spirit.

AN IMPORTANT DISCOVERY.—We commend the following, which we clip from the *Colonist*, to the attention of our naturalists. Abounding as this colony does with resinous pines it is highly probable that the substance alluded to may be found to exist here in abundance:—

"**ACETIC ACID.**—This is the name now given to a substance recently discovered in California, obtained by the distillation of the resin from a peculiar variety of the pine, indigenous in certain sections of the State. It has been submitted to a number of practical chemists for analysis, and has been found to possess some remarkable properties, which bid fair to make its discovery of much importance in chemistry. In addition to possessing all the peculiar qualities of turpentine, without its offensive odor, it is said to produce the same influence on the human system as chloroform, and to be invaluable as a remedial agent for rheumatism, piles, cuts, and bruises. It is also a very fragrant perfume, possessing the agreeable odor of orange blossom."

ANOTHER BIG WEEK.—It will be seen by reference to the regular weekly returns in another column that the receipts at the Custom House for last week were £3368 10 5, of which £30 14 3 was export duty on gold. This item may appear small; but it must be recollected that there is usually very little coming down at this particular season, and the lateness of the spring, together with the condition of the roads, will quite account for the light receipts on gold.

REDUCTION IN EXPRESS FREIGHT.—It will be seen by reference to our advertising columns that Mr. Barnard has made a considerable reduction upon his former rates of express freight to Cariboo. Seventy-five cents a pound would seem to be very reasonable indeed.

BY TELEGRAPH.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

Jeff. Davis Escapes across Mississippi.

A PIRATICAL SCHEME IN TORONTO, C. W., BROKEN UP.

Chapman Negotiates with Mosby and Johnson for Surrender.

AN ARMISTICE OF 20 DAYS TO BE GRANTED.

WILSON HOLDS MACON, GA.

Howell, Cobb, G. A. Smith, &c., Prisoners

Dates to the 24th inst.

Unfortunately the wire broke down in the middle of our special dispatch on Tuesday night, but what there is we lay before our readers:—

NEW ORLEANS, April 18.—It is reported that Jeff. Davis crossed the Mississippi River at Sucker's Bend, which was occupied by cavalry on the night of the 18th, escaping the observation of the naval forces.

NEW YORK, April 23.—Toronto (Canada) papers contain affidavit stating that "notorious McDonald," of that city, together with a man named Dennison, were preparing piratical vessels at Collingwood for purposes of plunder on the lakes. The scheme, however, had been frustrated and the vessels seized.

NEW YORK, April 24.—The *Times* special dispatch says General Chapman had secured basis of agreement similar to that obtained by Johnson. A person present at the consultation informed the correspondent that a memorandum on the basis of agreement was drawn up by General Chapman, in the presence of 22 Federal and 20 rebel officers, and that it provided that Mosby should surrender upon the same terms as Johnson, and that if the latter should surrender a 20 days' armistice would be allowed to submit the agreement to General Hancock for his approval, and that if Hancock approved Mosby to get a reply from Johnson, and meantime no skirmishing should take place in Fauquier and Loudoun Counties; but if Johnson failed to surrender or got whipped Mosby should surrender on the same terms upon which Lee surrendered.

WASHINGTON, April 24.—To Dix, Wilson held Macon, Ga., on the 20th, with Howell, Cobb, G. A. Smith and others as prisoners, but he telegraphed me through rebel lines for orders. [Here the line broke down south of Seattle.]

LESSON NUMBER 2.—We gave in our last issue a specimen of the *modus operandi* by which the Legislative Assembly of the neighboring colony, a body which we are modestly invited to imitate, "advances towards the end of all good government." It now devolves upon us to adduce lesson number 2, for the edification of our legislators. On Friday a discussion upon the Crown Lands was wound up in the most elegant and approved parliamentary style, for a perusal of which we must refer our readers to the *Colonist* of Saturday, declining as we do to fill our columns with such trash. We shall surely be spared hereafter, the humiliation of being asked to imitate anything so utterly inimitable as the sayings and doings of the Vancouver Assembly. And yet we are told that union would be a great blessing to this colony, inasmuch as it would bestow upon us the liberal institutions, and enlightened statesmanship with which the island is now blessed (?). May Heaven spare us from so very doubtful a blessing.

THE LOWER FRASER WAGGON ROAD.—It is currently reported that it has been decided to build this road upon the opposite side of the Fraser. If so, we think a serious mistake has been made. The road should have followed up this side at least until Harrisonmouth is reached; and we believe that no very serious engineering difficulties exist until that point is reached. To construct it on the other side all the way is to detract very materially from its value as a great highway connecting the seaboard with the interior.

THE CAMP ROAD.—The road along the waters edge connecting the Camp with the city is completed, and has, we understand, been accepted by the Government. It only remains for the Municipal Council to complete Front Street so as to connect with the above road, and we shall have a delightful promenade along the water side.

THE WEATHER. which was very dry some time back, has undergone a most desirable change during the past two or three days. Warm and genial showers have brought vegetation forward wonderfully, so that spring crops will not, after all, be much later than usual.

LOCAL ENTERPRISE.—We observe that Mr. Holbrook is extending his wharf so as to make more ample accommodation for the California steamers, as well as to meet the increasing local trade.

THE LIGHTSHIP.—We understand that the contract for building the light-ship for the Fraser Sand Heads has been awarded to Messrs. Bolton & Cook at a trifle below \$12,000. We believe the work will be commenced immediately.

THE STR. "RELANCE" left for Yale yesterday, with about one hundred and forty tons of freight, and 70 passengers. She took up about 40 head of horses and cattle, amongst which was a very fine entire horse, valued at \$2,000, for the Hudson Bay Company, at Kamloops.

THE BARK "ENVOY" is now loading at S. P. Moody & Co.'s mills, for Adelaide, Australia.

DISTINGUISHED DEPARTURES.—His Excellency the Governor and the Hon. Colonial Secretary went down to Victoria on the steamer *Enterprise* yesterday.

FOR AUSTRALIA.—The bark *Glimpse* cleared from Burrard Inlet yesterday with a cargo of 290,000 feet of lumber from S. P. Moody & Co.'s mills, for Sydney, Australia.

DOUGLAS STREET ROAD.—Mr. Scott, the contractor, informs us that this road will be completed to the Inlet in about two weeks.

NO DISPATCH.—Owing to the line being down our last night's telegraphic dispatch did not reach us.

CUSTOMS RECEIPTS for week ending Saturday, April 22nd, 1865: Duties (import), £3123 9 10; do. (gold), £30 14 5; harbor dues, £31 0 6; headmoney, £63 16; tonnage, £111 3; fines, \$ 6 8. Total, £3,368 10 5. Number of passengers entering at this port during same period, 319.

The Rev. R. Jamieson on Dishonesty. To the Editor of the British Columbian.

SIR,—In your issue of last Saturday the Rev. R. Jamieson charged me with "literary dishonesty," "falsely the record," etc.

When past experience tells me how pleasant it is to have any sort of intercourse with the many members of that respectable class with which my revered opponent is connected, I could not possibly confound him with them; yet as it gives his reverence some sort of importance I cannot permit such a rude attack as he made upon me to pass unnoticed.

A plain statement will dispense with entering into a long newspaper controversy, to which I am as strongly averse as the Rev. R. Jamieson.

The thread of my views in my pamphlet on Education obliged me to give a brief exposure of Luther and Calvin's doctrine. As I had not their original works at my disposal and would not trust my memory, I read some eight or ten writers in English, French and Latin, who were exposing the doctrines of the first Reformers, with many quotations to support their exposure. I copied from Milner's *End of Religious Controversy* the quotation I gave in my pamphlet, without adding or subtracting one word, and gave the same reference he gave. I read the same quotation given by several writers, French, etc., with exactly the same meaning and reference as given by the Right Rev. J. Milner, D. D. Was this dishonesty? But as the Rev. R. Jamieson, with his strong belief in my dishonesty, may question these statements, I offer him any opportunity he may wish of seeing with his own eyes all the writers (now nearly a score) whom I have consulted, and who give the same exposure and often the same quotation which I did. Would the Rev. R. Jamieson brand all these writers, Frenchmen, Irishmen, Englishmen, Germans, Italians, etc., with dishonesty? I should respectfully beg him to consider that his self-approved "literal" translation might not be so "correct" as he thinks.

Although I think that the Rev. R. Jamieson is mistaken in the meaning he gives to the very passage quoted by himself, I would not charge him with dishonesty. I am not used to call dishonest a man whose opinion or interpretation, even of the Scripture, differs from my own, although I might say there are dishonest Frenchmen, Irishmen, Englishmen, etc.

According to my own interpretation the meaning of Calvin is not that it cannot enter into the mind of pious men if God predestined men to eternal death without any demerit of their own, merely by His sovereign will, but the meaning is that it cannot enter into the mind of pious men to expostulate with God if they are predestined to eternal death by His sovereign will, without any demerit of their own. Had not the Rev. R. Jamieson curtailed his quotation your readers might have been better able to judge by themselves of the real meaning of Calvin! Did it not answer his purpose to close with the words: "if such thoughts ever enter the minds of pious men, &c."

But my letter is already too long; and to end, I may merely say that I am willing to prove all my assertions, and bear my share of expenses, should the rev. gentlemen wish to prolong the controversy in pamphlet or other form, except in a newspaper, with the condition that Christian charity will be our rule of conduct and that it will not interfere with our respective duties.

With the intention of not replying to any more newspaper communications written in the style of the one inserted in your issue of the 22nd inst., I remain, Sir,

Faithfully yours, L. FOUQUET.

New Westminster, April 26th, 1865.

The Young Empire of British America.

The following passages from the speech delivered by the Hon. George Brown, upon the subject of federation, in the Canadian Parliament, will be found interesting:—

"* * * He was farther in favor of union as making us at once the third maritime power in the world. In 1761, before the war, the United States only built 3,000 more tons than British North America. That year the Colonies exported and sold vessels worth nine millions. The Colonies own 8,530 vessels, of 930,000 tons. France had only 60,000 tons more. Sixty-nine thousand men and boys were employed in the fisheries, and as seamen. Whether as producers of wealth, or as a means of defense, this was most important, as giving us a rank in the world. The fisheries produced over \$10,000,000; over \$7,500,000 of exports, besides food for the people employed with the ships, making a total of over sixteen and a half millions of dollars. In the face of the effort to develop such great interests, how petty were the objections raised. The sea-going tonnage employed was nearly five and a half millions, inland nearly seven millions of tons, being altogether over twelve millions. The United States had only sixteen millions; being only one third more, although we have only the same population they had seventy years ago. France, with a population of thirty-eight millions, at the same time only employed seven and a half millions of tons. We would become, therefore, the third maritime power, ranking next to Great Britain and the United States. He was in England when the details of the scheme became known there. He saw at once that it gave us a new and higher rank in the eyes of all the people. * * * The work in which they [the delegates] were employed at this moment was not a mere question of interest or

commercial advancement; it had more within its scope than that; it was the creation of a new nation on this continent; it was to bring together Newfoundland, with its 40,000 square miles, equal in size to Portugal; Nova Scotia, which was equal to Greece; New Brunswick, equal to Switzerland and Denmark; Lower Canada, equal to France; Upper Canada, 20,000 square miles larger than England, Ireland and Scotland together; the Pacific colonies, equal to Australia; and the vast territories of the North-west, larger than Russia; and it was to unite all these into one country, equal in extent to the whole continent of Europe.

HOLLOWAY'S PILLS.—Wise Precaution.—The unwholesome vapours and frequent chills derange the animal economy to an immense extent, and permanently undermine the health, unless every now and then the blood be purified, the secretions rectified, and the nerves re-strung. Holloway's Pills perform these several necessary offices with certainty, safety, and expedition. Old and young, robust and feeble, male and female, will find these Pills an unfailing domestic remedy; not only in slight sicknesses, but also in the more serious and dangerous diseases which spring from neglect of early symptoms. Yet, under the purifying and correcting influence of Holloway's inestimable medicine, the liver appetite improves, the digestion gains strength, the liver acts freely, the kidneys secrete abundantly, and health is triumphant.

PUBLIC NOTICE.

COTTONWOOD & RICHFIELD WAGGON ROAD.

SEALED TENDERS will be received at the Lands & Works Office, New Westminster, up to noon of WEDNESDAY, the 31st day of MAY, 1865, for the construction of a Waggon Road connecting the COTTONWOOD RIVER BRIDGE with the road now made to a point about 3 miles from the town of Van Winkle.

The road to follow the present blazed line as far as Davis' Creek, and thence along the valley of Lightning Creek to the point above named. The road will be divided into three sections.

SECTION I.—Extending from Cottonwood Bridge to a point on Lightning Creek where the blazed line of road intersects Capt. Grant's Trail.

SECTION II.—Extending from the last named point to Davis' Creek.

SECTION III.—Extending from Davis' Creek to the termination of the road (now constructed from Richfield), in the vicinity of the 47-mile post on Captain Grant's Trail.

Parties tendering for more than one section of this work must send in a separate tender for each section.

With each tender must be enclosed a Bond of the person tendering, and of two responsible Sureties with him, for the payment to the Government of the sum of £1,000, conditional on the non-fulfilment by him of the terms of his tender, if accepted.

The lowest or any tender not necessarily accepted. Further particulars can be had by applying at the Lands & Works Office, New Westminster, or at the Magistrate's Office, Quenselmouth, where the Specifications and form of Bond can be seen.

Tenders to be addressed to the Chief Commissioner of Lands & Works, and superscribed "Tender for Cottonwood and Richfield Road."

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad

Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the

healing properties of this excellent Ointment. The

worst cases readily assume a healthy appearance when

ever this medicament is applied; sound flesh synges

up from the bottom of the wound, inflammation of the

surrounding skin is arrested, and a complete, and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-

mation.

These distressing and weakening diseases may with

certainly be cured by the sufferers themselves, if they

will use Holloway's Ointment, and closely attend to the

printed instructions. It should be well rubbed upon

the neighbouring parts, when all obnoxious matter will

be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most

scrupulous cleanliness must be observed. If those who

read this paragraph will bring it under the notice of

such of their acquaintances whom it may concern, they

will render a service that will never be forgotten, as a

cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and

subduing pain in these complaints in the same degree

as Holloway's cooling Ointment and purifying Pills.

When used simultaneously they drive all inflammation

and depravities from the system, subdue and remove

all enlargement of the joints, and leave the sinews and

muscles lax and uncontracted. A cure may always be

effected, even under the worst circumstances, if these

of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &

other Skin Diseases.

After fomentation with warm water, utmost relief and

speediest cure can be readily obtained in all complaints

affecting the skin and joints, by the simultaneous use of

the Ointment and Pills. But it must be remembered

that nearly all skin diseases indicate the depravity of

the blood, and derangement of the liver and stomach,

consequently, in many cases, time is required to purify

the blood, which will be effected by a judicious use of

the Pills. The general health will be readily improved,

although the eruption may be driven out more freely

than before, and which should not be promoted; per-
severance is necessary.
